The co-pay savings offer is only valid for commercially insured and cash-paying patients. This offer is not insurance. It is not valid for prescriptions covered by or submitted for reimbursement in whole or in part under Medicaid, Medicare, or other state or federal health care programs, including any state medical pharmacy assistance program.

Patient Instructions: Pay as little as $20 for each prescription of 30 patches if your out-of-pocket cost is $100 or less. If your out-of-pocket cost is more than $100, you will save up to $80 on each prescription of 30 patches. Offer valid for up to a total of 12 prescriptions of 30 patches. You must bring this offer with you to your pharmacy with a valid prescription each time you fill a Daytrana® (methylphenidate transdermal system) by using this offer, you acknowledge that you meet the eligibility criteria and will comply with these terms and conditions. Offer limited to one use per month. If you have any questions, please call 1-866-849-4512, 24 hours, 7 days a week.

Physician: When you apply this offer, you are certifying that you have not submitted a claim for reimbursement under any federal, state, or other governmental program for this prescription. Participation in this program must comply with all applicable laws and regulations as a pharmacy provider. By participating in this program, you are certifying that you will comply with the terms and conditions described in the Restrictions section below.

Physician instructions for a patient with Eligible Third Party: Submit the claim to the primary Third Party payer first, then submit the balance due to Change Healthcare for COB (coordination of benefit) with patient responsibility amount and a valid Other Coverage Code, (e.g. B). The patient pay amount will be reduced by up to $80 on the next 12 prescriptions after paying the first $20. Reimbursement will be received from Change Healthcare.

Physician instructions for cash-paying patient: Submit this claim to Change Healthcare. A valid Other Coverage Code, (e.g. J) is required. The patient pay amount will be reduced by up to $80 on the next 12 prescriptions after paying the first $20. Reimbursement will be received from Change Healthcare.

Other Coverage Code required: For any questions regarding change healthcare online processing, please call the Help Desk at 1-800-423-1564.

Restrictions: This offer is valid only in the United States. Offer not valid for prescriptions reimbursed under Medicaid, a Medicare drug benefit plan, Tricare or other federal or state health programs (such as medical assistance programs). If the patient is eligible for drug benefits under any such plans, the offer will not apply. By using this offer, the patient certifies that he or she will comply with any terms of his or her health insurance contract requiring notification to his or her payer of the existence and/or value of this offer. It is illegal to (or offer to) sell, purchase, trade, or use this offer. The offer is not transferable and is limited to one offer per person. Not valid if reproduced. Void where prohibited by law. Program managed by ConnectRx on behalf of Noven Pharmaceuticals. The parties reserve the right to rescind revoke or amend this offer without notice at any time. The amount of savings cannot exceed the patient’s out-of-pocket expense. Product dispensed pursuant to program rules, and federal and state laws.

Use of the DAYTRANA® (methylphenidate transdermal system) Patch

The Daytrana patch contains a prescription central nervous system (brain) stimulating medicine used to treat ADHD in children and adolescents 6 to 17 years old. Use of the Daytrana patch may help increase attention and decrease impulsive and hyperactive behavior. The Daytrana patch should be used as a part of a total treatment program for ADHD that may include counseling or other therapies.

Important Safety Information

IMPORTANT: Daytrana is a controlled substance (CSII) because it can be abused or lead to dependence. Keep Daytrana in a safe place to protect it from theft. Selling or giving away Daytrana may harm others and is against the law. Tell the prescribing doctor if your child has ever been abused or depend on alcohol, prescription medicines or street drugs.

The Daytrana patch should not be used if your child has been diagnosed as very anxious, tense, or agitated; has an eye problem called glaucoma; has tics (repeated movements or sounds that cannot be controlled); has a diagnosis or family history of Tourette’s syndrome; is taking a monoamine oxidase inhibitor (MAOI) medicine or has discontinued an MAOI medicine in the last 2 weeks; or is allergic to methylphenidate, acrylic adhesive, or silicone adhesive.

Serious heart problems have been reported with the Daytrana patch or other stimulant medicines including;

• sudden death in people with heart problems or heart defects
• stroke and heart attack in adults
• increased blood pressure and heart rate

Tell the doctor if your child is pregnant or breast feeding.

Serious mental (psychiatric) problems have been reported in the Daytrana patch or other stimulant medicines including:

• new or worse aggressive behavior, hostility, anger or irritability
• new or worse bipolar illness or mania (an extreme increase in activity or talking)
• new or worse psychosis (hearing or seeing things that are not real, being suspicious, or distrustful, believing things that are not true)
• other unusual or extreme changes in behavior or mood

Tell the doctor about any mental problems your child or family members have experienced including suicide or depression, bipolar illness, mania, or psychosis. Call the doctor right away if you or your child has any signs of unexplained wounds appearing on fingers or toes while using Daytrana.

Serious heart problems such as chest pain, shortness of breath, or fainting while using Daytrana. Before you start using Daytrana, tell your doctor if you have circulation problems in fingers or toes. Call the doctor if you have any signs of heart problems such as chest pain, shortness of breath, or fainting while using Daytrana. Be sure to tell the doctor if your child is pregnant or breast feeding.

Serious side effects such as seizures (this usually happens in children with a history of seizures), painful and prolonged erections (priapism), slowing of growth (weight and height), persistent loss of skin color (chemical leukoderma) and eye changes or blurred vision have been reported with the Daytrana Patch. Because of the potential for lasting damage, seek medical help immediately if you or your child develops priapism. Your child should have their height, weight, and blood work checked while using the Daytrana patch and the doctor may stop treatment if a problem is found during these check-ups. Allergic skin rash may occur. Stop using the Daytrana patch and see the doctor right away if swelling, bumps, or blisters happen or at around the site where the patch was applied. If the patch is worn longer than 9 hours in a day, or more than 1 patch is worn at a time, too much medicine has been applied. Avoid exposing the Daytrana patch to direct external heat sources such as hair dryers, heat pads, electric blankets, heated water beds, or other heat sources while wearing the patch. Heating the patch could cause too much medicine to pass into your child’s body and cause serious side effects.

Other common side effects seen while using the Daytrana patch include skin problems (redness, small bumps, itching) where the patch is applied, poor appetite, nausea, vomiting, stomach pain, weight loss, loss of appetite, and headaches. If you have any questions, please call 1-866-849-4512, 24 hours, 7 days a week.
