This co-pay savings offer is only valid for commercially insured and cash-paying patients. This offer is not insurance. It is not valid for prescriptions covered by or submitted for reimbursement in whole or in part under Medicaid, Medicare, or other state or federal health care programs, including any state medical pharmacy assistance program.

Patient Instructions: Pay as little as $20 for each prescription of 30 patches if your out-of-pocket cost is $100 or less. If your out-of-pocket cost is more than $100, you will save a total of $80 on each prescription of 30 patches. Offer valid for up to a total of 12 prescriptions of 30 patches. You must bring this offer with you to your pharmacy with a valid prescription each time you fill Daytrana®, (methylphenidate transdermal system). By using this offer, you acknowledge that you meet the eligibility criteria and will comply with these terms and conditions. Offer limited to one use per month. If you have any questions, please call 1-866-849-4512. 24 hours, 7 days a week.

Pharmacist: When you apply this offer, you are certifying that you have not submitted a claim for reimbursement under any federal, state, or other governmental programs for this prescription. Participation in this program must comply with all applicable laws and regulations as a pharmacy provider. By participating in this program, you are certifying that you will comply with the terms and conditions described in the Restrictions section below.

Pharmacist instructions for a patient with Eligible Third Party: Submit the claim to the primary Third Party payer first, then submit the balance due to Change Healthcare for COB (coordination of benefit) with patient responsibility amount and a valid Other Coverage Code, (e.g. B). The patient pay amount will be reduced by up to $80 on the next 12 prescriptions after paying the first $20. Reimbursement will be received from Change Healthcare.

Pharmacist instructions for cash-paying patient: Submit this claim to Change Healthcare. A valid Other Coverage Code, (e.g. J) is required. The patient pay amount will be reduced by up to $80 on the next 12 prescriptions after paying the first $20. Reimbursement will be received from Change Healthcare.

Other Coverage Code required: For any questions regarding Change Healthcare online processing, please call the Help Desk at 1-800-423-1604.

Restrictions: This offer is valid only in the United States. Offer not valid for prescriptions reimbursed under Medicaid, a Medicare drug benefit plan, Tricare or other federal or state health programs (such as medical assistance programs). If the patient is eligible for drug benefits under any such programs, use of the Patch will result in an overpayment and the pharmacist will be required to refund the overpayment to the patient. Offer not valid to patients who (i) are subject to federal or state laws prohibiting the use of this offer, (ii) are subject to federal or state laws requiring notification to his or her payor of the existence and/or value of this offer. It is illegal (or offer to sell, purchase, or trade this offer). This offer is not transferable and is limited to one offer per person. Not valid if reproduced. Void where prohibited by law. Program managed by ConnectRx® on behalf of Noven Pharmaceuticals. The parties reserve the right to rescind, revoke or amend this offer without notice at any time. The amount of reimbursement cannot exceed the patient’s out-of-pocket expenses. Product dispensed pursuant to program rules, and federal and state laws.

Use of the Daytrana® (methylphenidate transdermal system) Patch

The Daytrana patch contains a prescription central nervous system (brain) stimulant medicine used to treat ADHD in children and adolescents 6 to 17 years of age. Use of the Daytrana patch may help increase attention and decrease impulsiveness and hyperactivity. The Daytrana patch should be used as part of a total treatment program for ADHD that may include counseling or other therapies.

IMPORTANT Safety Information

The Daytrana patch should not be used if your child has been diagnosed as very anxious, tense, or agitated; has an eye problem called glaucoma; has tics (repeated movements or sounds that cannot be controlled); has a diagnosis or family history of Tourette’s syndrome; is taking a monoamine oxidase inhibitor (MAOI) medicine or has discontinued an MAOI medicine in the last 2 weeks; or is allergic to methylphenidate, acrylic adhesive, or silicone adhesive.

Serious mental (psychiatric) problems have been reported with the Daytrana patch or other stimulant medicines including:
• new or worse psychosis (hearing or seeing things that are not real, being suspicious, or distrustful, believing things that are not true)
• new or worse mania or hypomania
• new or worse mood changes (e.g., depression or mania)
• new or worse aggressive behavior, hostility, anger or irritability
• new or worse bipolar illness or mania (an extreme increase in activity or talking)
• new or worse paranoia or hallucinations
• new or worse seizures
• new or worse behavior or thinking that are not real, being suspicious, or distrustful, believing things that are not true
• new or worse movement or mood changes

Tell the doctor if your child has any new or worsening mental symptoms or problems while using the Daytrana patch. Tell your doctor if your child or a family member has a history of bipolar illness.

Serious problems and possible death have happened at or around the site where the patch is applied. If the patch is worn longer than 9 hours in a day, or if more than 1 patch is worn at a time, more serious problems or death have happened at or around the site where the patch is applied. If the patch is worn longer than 9 hours in a day, or if more than 1 patch is worn at a time, more serious problems or death have happened at or around the site where the patch is applied. If the patch is worn longer than 9 hours in a day, or if more than 1 patch is worn at a time, more serious problems or death have happened at or around the site where the patch is applied. If the patch is worn longer than 9 hours in a day, or if more than 1 patch is worn at a time, more serious problems or death have happened at or around the site where the patch is applied. If the patch is worn longer than 9 hours in a day, or if more than 1 patch is worn at a time, more serious problems or death have happened at or around the site where the patch is applied. If the patch is worn longer than 9 hours in a day, or if more than 1 patch is worn at a time, more serious problems or death have happened at or around the site where the patch is applied. If the patch is worn longer than 9 hours in a day, or if more than 1 patch is worn at a time, more serious problems or death have happened at or around the site where the patch is applied. If the patch is worn longer than 9 hours in a day, or if more than 1 patch is worn at a time, more serious problems or death have happened at or around the site where the patch is applied. If the patch is worn longer than 9 hours in a day, or if more than 1 patch is worn at a time, more serious problems or death have happened at or around the site where the patch is applied. If the patch is worn longer than 9 hours in a day, or if more than 1 patch is worn at a time, more serious problems or death have happened at or around the site where the patch is applied. If the patch is worn longer than 9 hours in a day, or if more than 1 patch is worn at a time, more serious problems or death have happened at or around the site where the patch is applied. If the patch is worn longer than 9 hours in a day, or if more than 1 patch is worn at a time, more serious problems or death have happened at or around the site where the patch is applied.

Inform the doctor if your child has ever (or your child’s family members have ever) had or been dependent on alcohol, prescription medicines or street drugs.

Visit www.ChangeHealthcare.com for a complete list of terms and conditions.

Pay as little as $20 on up to 12 prescriptions

*See full program terms and conditions including max benefit below

Pay this offer or save the file to your mobile phone and bring to the pharmacy each time you fill your child’s prescriptions.
