Pay As Little As $20* on up to 12 prescriptions

*See full program terms and conditions including max benefit below

The co-pay savings offer is only valid for commercially insured and cash-paying patients. This offer is not insurance. It is not valid for prescriptions covered by or submitted for reimbursement in whole or in part under Medicaid, Medicare, or other state or federal healthcare programs, including any state medical pharmacy assistance program.

Patient Instructions: Pay as little as $20 for each prescription of 30 patches if your out-of-pocket cost is $100 or less. If your out-of-pocket cost is more than $100, you will save a total of $80 on each prescription of 30 patches. Offer valid for up to a total of 12 prescriptions of 30 patches. You must bring this offer with you to your pharmacy with a valid prescription each time you fill Daytrana® (methylphenidate transdermal system). By using this offer, you acknowledge that you meet the eligibility criteria and will comply with these terms and conditions.

Pharmacist: When you apply this offer, you are certifying that you have not submitted a claim for reimbursement under any federal, state, or other governmental programs for this prescription. Participation in this program must comply with all applicable laws and regulations as a pharmacy provider. By participating in this program, you are certifying that you will comply with the terms and conditions described in the Restrictions section below.

Pharmacist instructions for a patient with Eligible Third Party: Submit the claim to the primary Third Party Payer first, then submit the balance due to CHANGE HEALTHCARE for COB (coordination of benefits) with patient responsibility amount and a valid Other Coverage Code, (e.g. 8). The patient pay amount submitted will be reduced by up to $80 on the next 12 prescriptions after paying the first $20. Reimbursement will be received from CHANGE HEALTHCARE.

Pharmacist instructions for cash-paying patient: Submit this claim to CHANGE HEALTHCARE. A valid Other Coverage Code, (e.g. 11) is required. The patient pay amount submitted will be reduced by up to $80 on the next 12 prescriptions after paying the first $20. Reimbursement will be received from CHANGE HEALTHCARE.

Other Coverage Code required: For any questions regarding CHANGE HEALTHCARE processing, please call the Help Desk at 1-800-423-1504.

Restrictions: This offer is valid only in the United States. Offer not valid for prescriptions reimbursed under Medicaid, a Medicare drug benefit plan, Tricare or other federal or state health programs (such as medical assistance programs). If the patient is eligible for drug benefits under any such plans, the pharmacist must present the offer for the patient. By using this offer, the patient certifies that he or she will comply with all terms of his or her health insurance contract requiring notification to his or her payor of the existence and/or value of this offer. It is illegal (or to offer to) sell, purchase, or trade this offer. The offer is non-transferable and is limited to one offer per person. Not valid if reproduced. Void where prohibited by law. Program managed by ConnectivRx on behalf of Noven Pharmaceuticals. The parties reserve the right to rescind, revoke or amend this offer without notice at any time. The amount of the reimbursement cannot exceed the patient's out-of-pocket expenses. Product dispensed pursuant to program rules and federal and state laws.

Use of the DAYTRANA® (methylphenidate transdermal system) Patch

The Daytra patch contains a prescription central nervous system (brain) stimulant medication used to treat ADHD in children and adolescents 6 to 17 years old. Use of the Daytra patch may help increase attention and decrease impulsive and hyperactive behavior. The Daytra patch should be used as a part of a total treatment program for ADHD that may include counseling or other therapies.

Important Safety Information

IMPORTANT: Daytra is a controlled substance (CII) because it can be abused or led to dependence. Keep Daytra in a safe place to protect it from theft. Selling or giving away Daytra may harm others and is against the law. Tell the prescribing doctor if your child has ever been addicted to or abused alcohol, prescription medicines or street drugs.

The Daytra patch should not be used if your child has been diagnosed as very anxious, tense, or agitated; has an eye problem called glaucoma; has tics (repeated movements or sounds that cannot be controlled); has a diagnosis or family history of Tourette’s syndrome; is taking a monoamine oxidase inhibitor (MAOI) medicine or has discontinued an MAOI medicine in the last 2 weeks; or is allergic to methylphenidate, acrylic adhesive, or silicone adhesive.

Serious heart problems have been reported with the Daytra patch or other stimulant medicines including:

• sudden death in people with heart problems or heart defects
• stroke and heart attack in adults
• increased blood pressure and heart rate

Tell the doctor if your child or a family member has any heart problems, heart defects, or increased blood pressure and heart rate. Remove the Daytra patch and call the doctor right away if your child has any signs of heart problems such as chest pain, shortness of breath, or fainting while using Daytra. Before you start using Daytra, tell your doctor if you have had circulation problems in fingers or toes, or had swelling, bumps, or blisters while using the patch. Tell the doctor if you are pregnant or plan to become pregnant.

Serious mental (psychiatric) problems have been reported with the Daytra patch or other stimulant medicines including:

• new or worse aggression, hostility, anger or irritability
• new or worse bipolar illness or mania (an extreme increase in activity or talking)
• new or worse psychosis (hearing or seeing things that are not real, being suspicious, or distrustful, believing things that are not true)
• unusual or extreme changes in behavior or mood

Tell the doctor about any mental problems your child or family members have experienced including suicide or depression, bipolar illness, mania, or psychosis. Call the doctor right away if your child has any new or worsening mental symptoms or problems while using the Daytra patch. Tell your doctor if you, your child, or a family member has a history of suicide.

Be sure to tell the doctor if your child is pregnant or breast feeding.

Serious side effects such as seizures (this usually happens in children with a history of seizures), painful and prolonged erections (priapism), slowing of growth (height and weight), increased loss of skin color (chemical leukoderma) and eye sight changes or blurnal vision have been reported with the Daytra patch. Because of the potential for lasting damage, seek medical help immediately if you or your child develops priapism. Your child should have their height, weight, and blood work checked while using the Daytra patch and the doctor may stop treatment if a problem is found during these check-ups. Allergic skin rash may occur.

Stop using the Daytra patch and see the doctor right away if swelling, bumps, or blisters happen or if your child has ever had a severe allergy reaction. Tell the doctor right away if you or your child has any signs of unexplained wounds appearing on fingers or toes while using Daytra.

Other common side effects include:

• new or worse digestive disturbance
• appetite, nausea, vomiting, stomach pain, weight loss, loss of appetite
• trouble sleeping, mood swings, and dryness

Please read Medication Guide and Full Prescribing Information including the boxed Warning regarding abuse and dependence. You are encouraged to report negative side effects of prescription drugs to the FDA. Visit http://www.fda.gov/medwatch or call 1-800-FDA-1088.
